The Governing Council has the authority through the regulations under the Education Act to determine the appropriate dress code for our school and the school leadership must enforce the policy and take appropriate action in relation to wilful and persistent breach of the policy.
The following actions will be implemented by the school when a child is not in uniform.
- Students not in school tops may be lent a school top to wear over their own clothes for the day.
- Students not wearing a school hat will need to remain in a designated shaded area during lunch and recess breaks.
- Other consequences in line with the schools behaviour management policy

Please contact the office if you are experiencing any difficulties having your child in uniform.
